Contents of Volume 20

Number 1, July/August 1990

Publisher's announcement (electronic manuscripts) v

Effect of zinc on the proliferative response of human lymphocytes: mechanism of its mitogenic action
I. Malave, J. Rodriguez, Z. Araujo and I. Rojas (Venezuela) 1

Inhibition of polyamine synthesis suppresses human lymphocyte proliferation without decreasing cytokine production or interleukin 2 receptor expression
M.A. McCarthy, J.P. Michalski, E.S. Sears and C.C. McCombs (U.S.A.) 11

Alleviation of experimental cyclosporin A toxicity by substitution of fish muscle oil as drug vehicle
I.B. Craighead, S.D. Heys, L.M. Smart, A.W. Thomson and P.H. Whiting (U.K.) 21

Anti-allergic properties of cyclosporin A: inhibition of mediator release from human basophils and rat basophilic leukemia cells (RBL-2H3)
C.I. Ezeamuzie and E.-S.K. Assem (U.K., Nigeria) 31

A comparison of the priming effect of phorbol myristate acetate and phorbol dibutyrate on fMet-Leu-Phe-induced oxidative burst in human neutrophils
M. Gaudry, C. Combadiere, C. Marquetty and J. Hakim (France) 45

Effects of FK-506 and cyclosporine on human T and B lymphoproliferative responses
M. Wąsik, B. Stępień-Sopniewska, Z. Łagodziński and A. Górski (Poland) 57

Number 2, September/October 1990

Publisher's announcement (electronic manuscripts) iii

The polyclonal activation of lymphocytes and T cell mitogenicity by a unique sialic-acid-binding lectin from the hemolymph of *Achatina fulica* snail
C. Mandal and M. Chowdhury (India) 63

Cadmium inhibits spontaneous (NK), antibody-mediated (ADCC) and IL-2-stimulated cytotoxic functions of natural killer cells
M.G. Cifone, A. Procopio, T. Napolitano, E. Alesse, G. Santoni and A. Santoni (Italy) 73

Suppression by adrenoceptor beta-agonists of vascular permeability increase and edema formation induced by arachidonate metabolites, platelet-activating factor, and tumor-promoting phorbol ester TPA
K. Ohuchi, M. Watanabe, N. Hirasawa, S. Yoshizaki, S. Mue and S. Tsurufuji (Japan) 81

Thymosin α_1 and thymosin β_4 modulate human colonic lamina propria lymphocyte function
Y. Elitsur, M.G. Mutchnick, W.A. Sakr and G.D. Luk (U.S.A.) 89

Regulation of interleukin-2 production and phosphatidylserine synthesis in Jurkat T lymphocytes by K^+ channel antagonists
C. Aussel, C. Pelassy, D. Mary, D. Choquet and B. Rossi (France) 97

Endotoxin releases platelet-activating factor from human monocytes in vitro
H.A. Leaver, J.M. Qu, G. Smith, A. Howie, W.B. Ross and P.L. Yap (U.K.) 105

Effect of venom from *Cerastes cerastes* (Egyptian sand viper) on luminol-dependent chemiluminescence of human blood phagocyte cells
A.A. Mustafa (Saudi Arabia) 115

The modulation of interleukin 1 production by interferon gamma, and the inhibitory effects of gold compounds
M. Harth, G.A. McCain and K. Cousin (Canada) 125

Transmembrane signalling associated with ganglioside-induced CD4 modulation
W.J. Morrison, H. Offner and A.A. Vandenbark (U.S.A.) 135

The influence of ether lipid (AMG) on histamine release from isolated rat mast cells: synergistic interaction with TPA indicates protein kinase C activation
N. Grosman (Denmark) 143

Announcement 151

Number 3, November/December 1990

Publisher's announcement (electronic manuscripts) iii

Immunomodulatory effects of nitrosoureas on the phenotype and functions of T cells in the thymus and periphery
S. Clary, P.S. Nagarkatti and M. Nagarkatti (U.S.A.) 153

Modulation of murine in vitro immune response by verapamil (V)
A.B. Singh, K. Hiehle, P. Casale, S. Gerber, S. Nayar and R.A. Mann (U.S.A.) 165

Structural requirements for binding of adenosine-5′-*O*-(3-thiotriphosphate) (ATPγS) to human neutrophils
G.H. Yu and P.A. Ward (U.S.A.) 175

In vivo augmentation of local xenogeneic graft-versus-host reaction by cimetidine and Bacillus Calmette-Guerin
J.R. Snyman and D.K. Sommers (Republic of South Africa) 183

Corticosteroid and immune responses of mice following mini-osmotic pump implantation
R.R.R. Rowland, E. Reyes, R. Chukwuocha and S. Tokuda (U.S.A.) 187

Effect of cyclosporin A on the anti-CD3 antibody- and concanavalin A-induced activation and membrane potential of human T lymphocytes
P. Gergely and A. Aszalos (U.S.A.) 191

Uromodulin: a specific inhibitor of IL-1-initiated human T cell colony formation
A. Winkelstein, A.V. Muchmore, J.M. Decker and R.M. Blaese (U.S.A.) 201

Substance P increases and prolongs increased output of T4 (CD4) lymphocytes from lymph nodes of sheep in vivo: is it a mediator of immunological memory?
T.C. Moore, G.A. Whitley, J.L. Lami and S.I. Said (U.S.A.) 207

Sulfasalazine inhibits the binding of TNFα to its receptor
F. Shanahan, A. Niederlehner, N. Carramanzana and P. Anton (U.S.A.) 217

Enhancement of the immune response in mice by *Astragalus membranaceus* extracts
K.S. Zhao, C. Mancini and G. Doria (Italy) 225
